

# 1-Minute Guide to Direct-to-Film (DTF) Transfers

## What's DTF?

DTF stands for Direct-to-Film. It's a cool way to put any picture or design onto your clothes. **Imagine printing a custom sticker & then ironing it onto your favorite T-shirt.**

**Watch Video On Why More And More People Are Switching Over To DTF**

## What Makes DTF Cool? 😎

- You can choose **any design** you like, from cartoons to your own drawings. **Whatever you can think of, you can print**
- It works on **all kinds of clothes & items** - T-shirts, jackets, and even hats
- The colors are **super bright**, and the design stays on for a long time.

## More Durability, No Cracks

**DTF transfers are incredibly durable**, with designs typically lasting **for up to 50 washes** before showing any signs of wear. To keep your clothes looking sharp, stick to washing them inside out in cold water and air drying.

# 1-Minute Guide to Direct-to-Film (DTF) Transfers

## **How to Press DTF Transfers Onto Garments:**

**Pick Your Clothes:** Find a nice, clean piece of clothing where you want your design.

**Prep Your Iron Area:** Get an ironing board or a flat, heat-resistant surface. Heat Press Time (if you have one. If not, an iron works too)

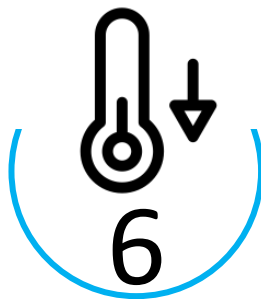

**Set it to 320°F (160°C).** Press for 15 seconds to warm up your clothes (makes them ready for the design).

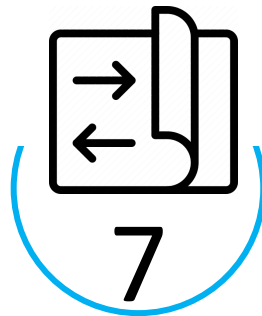

**Place Your Design:** Put your DTF transfer (the sticker) where you want the design on your clothes. Make sure the sticky side is touching the fabric.

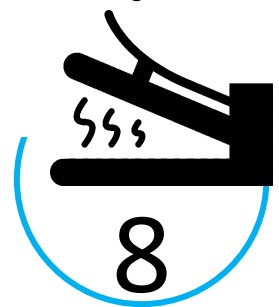

**Press It On:** If using a heat press, press down for 15 seconds. If using an iron, press down hard and move it slowly over the design for 15-30 seconds.

**Cool Down:** Let the design and clothes cool for a bit.

**Peel It Off:** Gently peel off the plastic film from the design.

**Final Press:** Put a thin cloth or parchment paper over the design. Press one more time for 5 seconds to make sure it's really stuck on there.

**And You're Done:** Your clothes now have a cool new design that's all yours. Remember, always ask an adult for help, especially with the iron or heat press.  
**Happy designing :)**
